DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 4-5, 18, 23, and 38 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 3-4, 18, 25, and 28 of U.S. Patent No. 6778566. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1, 18, and 38 of this application disclose the same characteristics of the conflicting patent as called for claims 1, 18, and 28. Other remaining claims 4-5 and 23 of the application are similarly recited as corresponding claims 3-4 and 25 of the conflicting patent.

Art Unit: 2828

Allowable Subject Matter

Claims 2-3, 6-8, 19-22, 24-27, and 39-45 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9-17 and 28-37 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 9 and 28 are allowed over the King (5812572) and Erdogan (5712715) prior art because they fail to teach the limitations of correlating a difference between the first and second side mode suppression ratios with a measured bit error rate; and determining a value of an operational parameter for the laser based upon the correlation between the suppression ratio difference and measured bit error rate.

Claims 10-17 and 29-37 are found allowable due to their dependency of claims 9 and 28.
